USRowing Pathways Mission

The mission of USRowing's U23 National Team is to develop young athletes who meet the highest international competitive standards, with the long-term potential to progress through USRowing's High Performance Pathways Program. Potential for future success at the Senior National Team level is valued just as much as current competitive results, ensuring an integrated approach to athlete development, and fostering continued growth towards success at the Olympic level.

USRowing Competitive Standard Times (CST)

The purpose of the selection procedures is to select qualified athletes and crews to represent the United States at theWorld Rowing Under 23 Championships. In order to ensure that all selected crews have the experience, skill, and speed necessary to compete with current international standards, minimum time standards are part of the selection procedures.

Rowing has no official world records. For the Elite level World Rowing registers World Best Times during all World Rowing events (World Cups, Continental and World Championships, Olympics). These times are not called 'records' because of the variations rowers experience in wind, water temperatures and flow. For Under 23 and Under 19 World Rowing only registers World Rowing Championships Best Times.

World Best Times are helpful for developing standards. In order to determine fair and comparable standards across the events there are more criteria to take into consideration. The USRowing Competitive Standard Times (CST) for the Elite events are developed based upon three elements:

- Registered World Best Times;
- Theoretical calculation of the relative speed for each event based on the assumed power and weight of the World Class athletes and the drag of the boat;
- Statistical analysis of historical data of Olympics, World Rowing Championships and World Cups since 2001: average winning times, relative time per event in relation to M8+ for men and W8+ for women, relative time per lightweight event in relation to the open equivalent, spread in finals, trend per event over the last Olympic cycle.

For the U23 and U19 events the World Rowing U23/U19 Championships Best Times are not used for determining the standard times. In some cases, the best times are set by exceptional athletes who are also competing at elite level. Furthermore, the age categories are part of the pathway, so the standard should reflect this. USRowing uses internationally accepted percentages relative to the elite level that are supported by research and statistical analysis: 97% for U23 events and 95% for U19 events.

SELECTION CAMP

The following apply to both men's and women's selections.

A. There will be approximately twenty-six athletes (including coxswains) invited to the selection camp.

B. The objective of the camp is to select the boats and crews. Boats will be prioritized based upon competitive level in relation to the international competition.

C. For boat classes where no crew was selected during the U23 World Rowing Championship Trials, USRowing reserves the right to select a crew for these events from the Selection Camp (BM1x, BW1x, BM2-, BW2-).

D. Athletes will be invited to the selection camp based on the criteria listed below. Additional identified athletes may be invited after the camp begins and before the selection process starts. Criteria are listed in no particular order:

E. In order to be considered for an invitation athletes must meet a minimum 2k ergometer time. Athletes should note that this time is not a target. It is a minimum requirement in order to be eligible for an invitation to the selection camp. Exceptions may be made for athletes who perform well at small boat race opportunities including the 2027 U23 HP Winter Camp.

	Podium Standard	Minimum Requirement
Men	5:55.7 at 210 lbs	6:09.9
Women	6:47.2 at 170 lbs	7:03.9

F. The following are the considerations for athletes receiving invitations to selection camp. These considerations are in addition to the eligibility criteria for being invited to camp (as set forth on page 3 of this document);

1. Physical and physiological characteristics as outlined in the 2026 USRowing Talent Characteristics document document.
2. Performance in 2026-2027 National Team Testing:
   I. **6000m** erg test completed between **October 2026 and March 2027**;
   II. **2000m** erg test completed between **December 2026 and April 2027**;

3. Performance in domestic and international competitions in 2026 and 2027;
4. Performance at 2026 HP Winter Camp;
5. Video submissions (for coxswains, audio submissions);
6. Coach's recommendations.

G. Selection Camp Invitation Timeline

1. Application Window: **January 1-March 15, 2027**
2. Initial Invitations: **March 15-April 15, 2027**
3. Additional invitations may be made to athletes depending on late spring progress.

H. Coxswains will be invited based upon recommendation of the Coxswains Panel. The Coxswains Panel consists of retired Senior National Team coxswains, the Head Coach of High Performance Pathways, and the Lead Coaches for the camp. Candidates will apply through the link listed in Appendix L: Coxswain Selection Procedures by **March 29, 2027.** The Coxswain Panel will review all candidates and their qualifications submitted through the application and may request additional materials including updated race recordings. Applicants will be notified about decisions of the Coxswain Panel no later than May 1, 2027.

I. Before the start of the selection camp a document shall be published to explain the objectives of the camp, the program, the selection criteria and the selection protocols that will be used. In order to participate in the camp, the athletes have to acknowledge the document.

J. The Head Coach of High Performance Pathways shall, in consultation with the Chief High Performance Officer, appoint a Lead Coach and an Independent Selector for the selection camp. Final selection decisions shall be the responsibility of the Selector and Head Coach of High Performance Pathways.

K. The objective of the camp is to select the crews for the team boats based on the following factors (listed in no specific order):

1. Athlete's specific technical skills for boat class and their seat;
2. Athlete's absolute power and power efficiency;
3. Athlete's team dynamic skills;
4. Overall performance at selection camp;
5. Meets minimal eligibility criteria set forth on page 3.
6. For coxed events, the coxswain's weight will also be considered.

L. At the conclusion of the selection process the Lead Coach shall present the proposed lineups to the Selector and the Head Coach of High Performance Pathways. After

approval by the Selector and Head Coach of High Performance Pathways, the proposed crews will attempt to achieve the performance requirement as outlined below. Should the Selector and/or Head Coach of High Performance Pathways disagree or have questions regarding the proposed line-ups and how they were selected, those concerns must be addressed prior to the crew attempting to achieve the performance requirement .

M. Performance Requirement

1. All crews selected from the U23 Selection Camp must demonstrate the ability to meet a competitive standard to be officially named to the 2027 U23 National Team.
2. Crews must demonstrate competitiveness in one of two ways:

N. Upon verification of the performance requirement being achieved by both the Selector and Head Coach of High Performance Pathways, the crews shall be named to the 2027 U23 National Team.

O. The selected athletes must sign and submit their declaration of intent to compete in the 2027 World Rowing Under 23 Championships to the USRowing Chief High Performance Officer, or their designee, no later than three days after publication of the selector decision.

P. Each selected athlete will be named to the 2027 U23 National Team, provided the athlete submit their declaration of intent to compete on time and satisfy the minimum eligibility criteria set forth on page 3.

SELECTION PROCESS AT SELECTION CAMPS

Selection camps are used to determine the top athletes and the fastest combination of top athletes, allowing the fastest individual athletes to come together in one location to assemble the best combination of talent in the team boats. In order to do so, at selection camps, individual athletes will be selected to form the best combination of talent for each boat. The selection camp process ensures that athletes in attendance have an opportunity to be selected for the team boat. However, the selection camp process, while based on objective performance markers, also must include team-related performance assessment. The dynamic of teamwork, leadership, and movement in a team boat requires development and assessment over time.

Results of measurable competitive processes at the selection camps, including, but not limited to time trials and seat racing, will be made available for athletes participating in the respective selection camp to review within 24 hours of the end of practice. USRowing will keep records of the underlying data used to evaluate athletes in the selection camp process for a period of six months after the 2026 World Rowing Championships.

GRIEVANCES RELATED TO THE SELECTION PROCESS

An athlete or coach who has grievances related to the selection process, is entitled to petition for a hearing by the Selection Panel. The hearing will include an appropriate representative of the High Performance Committee and the petitioner unless the petitioner waives this right, in which case the hearing will be conducted with written briefs only. A decision will be issued within two hours of the hearing. The petitioner may be entitled to further resolution of their grievance through the Bylaws of USRowing or USOPC.
