USRowing Pathways Mission

The mission of USRowing's U19 National Team is to develop young athletes who meet the highest international competitive standards, with the long-term potential to progress through USRowing's High-Performance Pathways. Potential for future success at the Senior National Team level is valued just as much as current competitive results, ensuring an integrated approach to athlete development, and fostering continued growth towards success at the Olympic level.

USRowing Competitive Standard Times (CST)

The purpose of the selection procedures is to select qualified athletes and crews to represent the United States at the World Rowing Championships. In order to ensure that all selected crews meet the level to be representatives of our country minimum time standards are part of the selection procedures.

Rowing has no official world records. For the Elite level World Rowing registers World Best Times during all World Rowing events (World Cups, Continental and World Championships, Olympics). These times are not called 'records' because of the variations rowers experience in wind, water temperatures and flow. For Under 23 and Under 19 World Rowing only registers World Rowing Championships Best Times.

World Best Times are helpful for developing standards. In order to determine fair and comparable standards across the events there are more criteria to take into consideration. The USRowing Competitive Standard Times (CST) for the Elite events are developed based upon three elements:

- Registered World Best Times;
- Theoretical calculation of the relative speed for each event based on the assumed

power and weight of the World Class athletes and the drag of the boat;

- Statistical analysis of historical data of Olympics, World Rowing Championships and World Cups since 2001: average winning times, relative time per event in relation to M8+ for men and W8+ for women, relative time per lightweight event in relation to the open equivalent, spread in finals, trend per event over the last Olympic cycle.

For the U23 and U19 events the World Rowing U23/U19 Championships Best Times are not used for determining the standard times. In some cases, the best times are set by exceptional athletes who are also competing at elite level. Furthermore, the age categories are part of the pathway, so the standard should reflect this. USRowing uses internationally accepted percentages relative to the elite level that are supported by research and statistical analysis: 97% for U23 open events, 98% for U23 lightweight events and 95% for U19 events.

SELECTION PROCESS AT SELECTION CAMPS

Selection camps are used to determine the top athletes and the fastest combination of top athletes, allowing the fastest individual athletes to come together in one location to assemble the best combination of talent in the team boats.

In order to do so, at selection camps, individual athletes will be selected to form the best combination of talent for each boat. The selection camp process ensures that athletes in attendance have an opportunity to be selected for the team boat. However, the selection camp process, while based on objective performance markers, also must include team-related performance assessment. The dynamic of teamwork, leadership, and movement in a team boat requires development and assessment over time.

Results of measurable competitive processes at the selection camps, including, but not limited to time trials and seat racing, will be made available for athletes participating in the respective selection camp to review within 24 hours of the end of practice. USRowing will keep records of the underlying data used to evaluate athletes in the selection camp process for a period of six months after the 2025 World Rowing Under 19 Championships.

GRIEVANCES RELATED TO THE SELECTION PROCESS

An athlete or coach who has grievances related to the selection process, is entitled to petition for a hearing by the Selection Panel. The hearing will include an appropriate representative of the High Performance Committee and the petitioner unless the petitioner waives this right, in which case the hearing will be conducted with written briefs only. A decision will be issued within two hours of the hearing. The petitioner may be entitled to further resolution of their grievance through the Bylaws of USRowing or USOPC.
