USRowing Competitive Standard Times (CST)

The purpose of the selection procedures is to select qualified athletes and crews to represent the United States at the World Rowing Championships. In order to ensure that all selected crews have the experience, skill, and speed necessary to compete with current international standards, minimum time standards are part of the selection procedures.

Rowing has no official world records. For the Elite level World Rowing registers World Best Times during all World Rowing events (World Cups, Continental and World Championships, Olympics). These times are not called 'records' because of the variations rowers experience in wind, water temperatures and flow. For Under 23 and Under 19 World Rowing only registers World Rowing Championships Best Times.

World Best Times are helpful for developing standards. In order to determine fair and comparable standards across the events there are more criteria to take into consideration. The USRowing Competitive Standard Times (CST) for the Elite events are developed based upon three elements:

- Registered World Best Times;
- Theoretical calculation of the relative speed for each event based on the assumed power and weight of the World Class athletes and the drag of the boat;

- Statistical analysis of historical data of Olympics, World Rowing Championships and World Cups since 2001: average winning times, relative time per event in relation to M8+ for men and W8+ for women, relative time per lightweight event in relation to the open equivalent, spread in finals, trend per event over the last Olympic cycle.

For the U23 and U19 events the World Rowing U23/U19 Championships Best Times are not used for determining the standard times. In some cases, the best times are set by exceptional athletes who are also competing at elite level. Furthermore, the age categories are part of the pathway, so the standard should reflect this. USRowing uses internationally accepted percentages relative to the elite level that are supported by research and statistical analysis: 97% for U23 events and 95% for U19 events.

b. Performance in 2026 international competition;
c. Coach's recommendation.

E. In order to be considered for a discretionary invitation athletes must meet a minimum 2k ergometer time. Athletes should note that this time is not a target. It is a minimum requirement in order to be eligible for an invitation to the selection camp. The minimum 2k time is 96% of the USRowing Podium Standard. The minimum is an absolute time and is not adjusted for athlete weight.

	Podium Standard	Minimum Requirement
Men	5:45.0 at 210 lbs	5:59.4
Women	6:35.0 at 170 lbs	6:51.5

F. An athlete who does not meet the minimum 2k time may request an exemption from the Chief High Performance Officer. The athlete must contact the Chief High Performance Officer before the invitation decision and explain the reason the minimum was not met, such as injury, illness, or other legitimate circumstances. The Chief High Performance Officer may grant the exemption and invite the athlete at their discretion, and may consult the USRowing Medical Committee, the coaching staff, or others as appropriate. The reason for any exemption will be documented.

COXSWAIN SELECTION

The Chief High Performance Officer, in consultation with the coaching staff, will invite two coxswains to each Training Center by October 31, 2026. Coxswains who want to be considered for M8+ and/or W8+ are expected to be training at the Training Center with the team, and at camps and events when the team travels, as requested by the coaching staff, from the time of their invitation through the conclusion of Selection Camp II. The invitation is discretionary and is based upon the evaluation of the required competences. If an invited coxswain doesn't meet the expectations and doesn't show sufficient progress to be considered a candidate for selection, the Chief High Performance Officer, in consultation with the coaching staff, can replace this coxswain with another candidate.

Each invited coxswain will have the opportunity to demonstrate their specific abilities, their understanding of the technical model, their group dynamic skills and other required competencies over a prolonged period of time. The Head Coach will select the coxswain after consultation with the selected rowers of the crew. This consultation will take place before the selection is made. The Head Coach's selection will be included in the proposal presented to the Selection Panel at the conclusion of Selection Camp II and is final upon the Panel's approval.

Coxswains who want to be considered for a future invitation and who have not applied in 2026 through the link listed in Appendix L, Coxswain Selection Procedures, are encouraged to do so by May 31, 2027. The Coxswains Panel will review the applications and advise the Chief High Performance Officer and the coaching staff about possible future candidates.

SELECTION PROCESS AT SELECTION CAMPS

Selection camps are used to determine the top athletes and the fastest combination of top athletes, allowing the fastest individual athletes to come together in one location to assemble the best combination of talent in the team boats. In order to do so, at selection camps, individual athletes will be selected to form the best combination of talent for each boat. The selection camp process ensures that athletes in attendance have an opportunity to be selected for the team boats. However, the selection camp process, while based on objective performance markers, also must include team-related performance assessment. The dynamic of teamwork, leadership, and movement in a team boat requires development and assessment over time.

Results of measurable competitive processes at the selection camps, including, but not limited to time trials and seat racing, will be made available for athletes participating in the respective selection camp to review within 24 hours of the end of practice. USRowing will keep records of the underlying data used to evaluate athletes in the selection camp process for a period of six months after the 2027 World Rowing Championships.

GRIEVANCES RELATED TO THE SELECTION PROCESS

An athlete or coach who has grievances related to the selection process, is entitled to petition for a hearing by the Selection Panel. The hearing will include an appropriate representative of the High Performance Committee and the petitioner unless the petitioner waives this right, in which case the hearing will be conducted with written briefs only. A decision will be issued within two hours of the hearing. The petitioner may be entitled to further resolution of their grievance through the Bylaws of USRowing or USOPC.

The High Performance Committee, in accordance with the USRowing Medical Committee, shall appoint a Safeguarding Officer for each National Team activity (Trials, Selection Camps, International Regattas).

Anyone who has a concern about a possible incident of harassment or abuse that relates to National Team activities should report it to the Safeguarding Officer. Any person who reports a possible incident of harassment or abuse in good faith shall not be subject to reprisal because of submitting a report; their identity shall be treated confidentially. These protections shall not apply to a person intentionally making false accusations.

Any information pertaining to an alleged incident of harassment and abuse shall be regarded as confidential and shall be shared on a strictly 'needs to know' basis with the Chair of the High Performance Committee. In particular, reports shall be treated confidentially and information (including name, date of birth, address of the concerned person or third party) shall not be disclosed, except, for example, if prior consent is given by that individual or if disclosure is necessary to protect someone from harm.

The Safeguarding Officer will, together with the Chair of the High Performance Committee identify the jurisdiction of the report. If the report is considered to relate to a criminal offence, it shall be referred to the Police and relevant authorities; If the report is considered to be outside USRowing's jurisdiction, it shall be referred to the appropriate person or organization. If the report is considered to be within USRowing's jurisdiction, they will carry out an assessment.
